Research & Work Experience

Aug 2025 – Present **Selected Postdoctoral Fellow, Georg Nemetschek Institute, Munich Data Science Institute, Technical University of Munich, Germany**

- Independent research topic on *Human-AI Alignment* within the *TUM GNI Postdoc Program*. Leading cross-disciplinary projects on causal inference and adaptive neural computation in engineering contexts.

Jul 2020 – Sep 2024 **Ph.D., Team Leader, Lecturer, Technical University Berlin/Leibniz University Hannover, Germany**

- Dissertation: *'Beyond Predictions - Alignment between Prior Knowledge and Machine Learning for Human-Centric Augmented Intelligence'*, with Honors*:* ***summa cum laude*****,** Supervisors: Prof. Dr.-Ing. Philipp Geyer., Prof. Dr. rer. nat. Marius Lindauer.
- Led Research Projects: German Research Foundation (DFG), Topic*: Machine Assistance*; German Federal Ministry of Education (BMBF), Topic: *AI for Science*.
- Co-established internal research team, main coordinator (2 years); Courses development & teaching (4 years); authored funding proposals (3).

Jan 2024 – Jun 2024 **Visiting Scholar, Center for the Built Environment, University of California, Berkeley, USA**

- Collaboration on causal inference-embedded AI for design decision-making and human-factor analysis; unbiased reasoning and knowledge discovery in engineering systems.

Oct 2017 – Dec 2019 **Research Assistant, FCN institute of E.ON Energy Research Center, Aachen, Germany**

- Led data analytics for EU renewable energy systems, developing forecasting pipelines and simulation tools within the *Virtual Energy System Laboratory* to inform German energy transition strategies.

Nov 2016 – Present **Co-founder, Joinergy Co. Ltd. (Jiaonengwang), Shanghai, PR China**

- Specialized in AI solutions and data-driven consulting within the energy digitalization, power market, and sustainability domains. Received funding from: Technology Entrepreneurship Foundation for Graduates (EFG), Shanghai, 2019; Tongji Eagles Foundation, Business Incubator of Tongji University Science Park, Tongji University, Shanghai, 2019; Talent Start-up Leadership Program, Suzhou, 2019.

Education

2015 - 2018 **RWTH Aachen University, Aachen, Germany**

- Master of Science in Sustainable Energy Supply Technology

2014 - 2015 **Beuth Hochschule für Technik Berlin, Berlin, Germany**

- Bachelor of Engineering in Building Engineering Technology (Dual Bachelor Program)

2011 - 2015 **Tongji University, Shanghai, PR China**

- Bachelor of Engineering in Building Facility Intelligence Technology, Faculty of Chinese-German University of Applied Sciences (CDHAW); With Nomination: ***Outstanding Alumni***

Technical Competency

Feb 2021 - Top 5% in *M5 (Makridakis Competitions) time-series forecasting competition*, Kaggle.

Juli 2021 - *AutoML Open Challenge: Artificial Intelligence Dependability Assessment (AI-DA)*, Siemens, Berlin, Germany.

- Finalist of *Siemens 'Hello Future' innovation challenge 2021*, Digitally-enabled Applications for Smart Districts, Berlin, Germany.

Technical Skills

- Python and R with knowledge of mainstream frameworks in Data Science, Machine Learning, and Deep Learning (Pytorch); Expertise in different systems (Windows, Linux), servers (Google Colaboratory, Amazon AWS), and environments.
- Full-stack development: HTML with JavaScript & CSS, Vue, PHP, Python (Django); Knowledge in Autodesk suite; Sketchup, EnergyPlus; Citavi, LaTeX; Adobe suite.

Publications

Working on

1. Chen. X, Sun, R., Schiavon, S. & Geyer, P., Beyond traditional statistic: uncovering deeper insights of survey data with causal inference.
2. Chen, X. (2025). Dynamical Alignment: A Principle for Adaptive Neural Computation. *arXiv preprint arXiv:2508.10064*.

Dissertation

- Chen, X. (2024). Beyond predictions: alignment between prior knowledge and machine learning for human-centric augmented intelligence, Doctoral dissertation. https://doi.org/10.15488/17976

Peer-reviewed Articles in International Journals or Open-source Platforms

1. Chen, X., Lv, G., Zhuang, X., Roa, C. D., Schiavon, S., & Geyer, P. (2025). Integrating symbolic neural networks with building physics: A study and proposal. *Journal of Building Engineering*, *111*, 113033.
2. Chen, X., Rex, A., Woelke, J., Eckert, C., Bensmann, B., Hanke-Rauschenbach, R., & Geyer, P. (2024). Machine learning in proton exchange membrane water electrolysis — A knowledge-integrated framework. *Applied Energy*, 371, 123550.
3. Chen, X., Singh, M.M. & Geyer, P., (2024). Utilizing domain knowledge: robust machine learning for building energy performance prediction with small, inconsistent datasets. *Knowledge-Based Systems*, p.111774.
4. Chen, X., Teng, X., Chen, H., Pan, Y., & Geyer, P. (2024). Toward reliable signals decoding for electroencephalogram: A benchmark study to EEGNeX. *Biomedical Signal Processing and Control*, *87*, 105475.
5. Chen, X., Sun, R., Saluz, U., Schiavon, S., & Geyer, P. (2023). Using causal inference to avoid fallouts in data-driven parametric analysis: A case study in the architecture, engineering, and construction industry. *Developments in the Built Environment*, 100296.
6. Chen, X., Abualdenien, J., Singh, M. M., Borrmann, A., & Geyer, P. (2022). Introducing causal inference in the energy-efficient building design process. *Energy and Buildings*, *277*, 112583.

6. Chen X., Saluz U., Staudt J., Margesin M., Lang W., & Geyer P. (2022). Integrated data-driven and knowledge-based performance evaluation for machine assistance in building design decision support, In 29th International Workshop on Intelligent Computing in Engineering, EG-ICE 2022. Aarhus, Denmark.
7. Chen, X., Guo, T., & Geyer, P. (2021). A hybrid-model forecasting framework for reducing the building energy

performance gap. In 28th International Workshop on Intelligent Computing in Engineering, EG-ICE 2021. Berlin, Germany, 2021, special issue on Advanced Engineering Informatics.

8. Chen, X., Singh, M.M. & Geyer, P. (2021). Component-based machine learning for predicting representative time-series of energy performance in building design. In 28th International Workshop on Intelligent Computing in Engineering, EG-ICE 2021. Berlin, Germany.

Patent

1. Device and method for predicting power consumer demand based on weight, CN 202011575395.X · Issued Dec 28, 2020.
2. Automatic selection system and method for time series data prediction, CN 201911374036.5 · Issued Dec 27, 2019.

Teaching Record

- 2023 Summer (LUH): Lecturer *'Data Sciences for Design and Engineering'*, M.S. Lecture, Guest Lecturer 'Data Science and Simulation', B.A. Lecture.
- 2022 Winter (LUH): Co-teach *'Data Sciences for Design and Engineering'*, M.S. Lecture.
- 2022 Summer (LUH): Teaching assistant for *'Data Sciences for Design and Engineering'*, M.S. Lecture.
- 2021 Winter (TUB): Lecturer *'Data Sciences for Energy-Efficient Design'*. M.S./B.A. Lecture.
- 2021 Summer (TUB): Teaching assistant for *'Data Sciences for Energy-Efficient Design'*, M.S./B.A. Lecture.

Funding & Research Project

- *FOR2363 EarlyBIM (GE1652/3-2): Knowledge Base and Machine-Learning Assistance for Performance-oriented Building Design* - German Research Foundation (DFG), 2020–2023.
    - Led in the coordination of five Research Units (6 Ph.D. candidates) from Technical University Munich, KU Leven, Technical University Berlin, Ruhr University Bochum, and University of Duisburg-Essen; Finalized & with knowledge transfer funding proposal extension.
- *HyThroughGen (03HY108C): High-Throughput Material Performance Evaluation for Water Electrolysis* - Federal Ministry of Education and Research (BMBF), 2023.
    - Co-lead Researcher with Research Center Julich & Fraunhofer Society for the Promotion of Applied Research e.V., Germany, evaluate promising materials and components for suitability in water electrolysis within 2 to 3 years instead of the usual 10 years, Finalized & with new BMBF proposal initiation.

Academic Services

- **Journal Reviewer:** Fuel (JFUE), Journal of Neural Engineering (JNE), Advanced Engineering Informatics (ADVEI), Energy and Buildings (ENB), Structures (STRUCTURES).
- **Conference Reviewer:** IBPSA, BS 2023 (International IBPSA conference and Exhibition, Building Simulation), EG-ICE 2021/22/23 (International Workshop on Intelligent Computing in Engineering), PLEA 2022 (Passive and Low Energy Architecture).
- **Scientific Committee Member:** European Group for Intelligent Computing in Engineering (EG-ICE).

Invited Talks and Interviews

- "*Pathway toward Prior Knowledge-Integrated Machine Learning in Engineering*", Intelligent reconstruction of multiphysical fields, DigitalFUTURES workshop, Tongji University, Shanghai, China*,* 2024.
- "*Enhancing Plausibility in Parametric Analysis: Causal Inference for Augmented Decision-Making - Insights from Architecture, Engineering, and Construct*", Indoor Air, Honolulu, USA, 2024.
- "*Knowledge-integrated Machine Learning in Building Engineering*", WELL Seminar, Center for the Built Environment, University of California, Berkeley*, USA,* 2024.
- "*Knowledge Base and Machine-Learning Assistance for Performance-oriented Building*", Toward Habitable Future Lecture, Faculty of Architecture and Landscape, Leibniz University Hannover, Germany*,* 2022.
- "*Introducing Causal Inference in the Energy-Efficient Building Design Process*", WELL Seminar, Center for the Built Environment, University of California, Berkeley, USA*,* 2022.
- "*Causal Inference as a Method to Aid the Process of Sustainable Building Design*", Community workshop on causal tools, Microsoft*,* 2021.
